About The Gents Place

Founded in 2008, The Gents Place is a membership-based grooming & lifestyle club. Featuring a classically sophisticated decor, each of the three Gents Place clubs serves as a haven where men can attend to their grooming needs while surrounded by like-minded gentlemen, fine cigars, complimentary drinks, and curated advice from our talented and dedicated staff of grooming professionals.

And yet, The Gents Place is so much more than grooming. We find it profoundly important that our members enjoy as much time as they can among their families, careers, and pastimes—but it's equally important they benefit from the time they devote to themselves. Life is not an errand, nor should we treat it as such. When it prompts us to attend a task with regularity, we might as well attend to it. Such is the path to looking our best, feeling our best, and becoming our best.
